0680070664

<https://www.tahiri.tech/>

I am a web developer looking for an opportunity to apply my technical skills and contribute to the development of innovative web applications. I am able to create my own custom-made themes / templates from scratch based on clients needs, and build responsive websites.

Technical Skills

likes : **HTML, CSS, JAVASCRIPT, PHP, MYSQL, WordPress**

Experience

alpatra elevators

2023-2024

- I work as a CNC machine designer and occasionally assist my colleagues with electrical and mechanical tasks.

Small Embroidery Factory

2017 - 2023

all this time i have been working in this company , we product embroidered items using embroidery machines for clients.

- i convert artwork or logos into digital embroidery files compatible with machines.
- i also work as an Embroidery Machines operator capable of creating intricate designs on various materials such as fabrics, garments, hats, bags, and more.

Education

Self-training in web development

2022 - current

i have always had a great passion for web development and i want to create a significant advantage in my career. i truly enjoy what i do, i always push myself to continually improve my skills, i stay up-to-date with the latest technologies, and tackle challenging projects with enthusiasm.

Office of Vocational Training and Employment Promotion (OFPPT)

2017

- IT and Network Maintenance and Support Technician

Elfarabi high school

Projects

haircut and spa website - <https://francespa.net>

- I created this custom website for a client in Saudi Arabia to help grow their business and improve their online visibility.

Store E-commerce - <https://furniro.tahiri.tech/>

- I am currently building this e-commerce store from scratch using WordPress and WooCommerce, using custom code without plugins to create a professional online shopping experience.
